HD 1080P WRISTWATCH USER'S MANUAL
Ɩ Profile

This product is the first wristwatch with FULL HD 1080P digital function,camera function,PC Camera.It looks lovely,but a useful wristewatch.The lovely designed wristwatch is easy to operate.

Ɩ Before use please read the following：

u It's the NEW Design waterproof wristwatch with High Resolution(1080P),when we started to design it,we consider the workarts of waterproof under 30meters.But because the construction of this product,it can not be used underwater more than 3 meters.It does a good job underwater within 3 meters and weatherproof.

1. The nut,A：MIC1 and the nut,B:MIC2 are microphone hole nut,the height of them are same.
2. The nut A,MIC1 is with a hole in the center of the nut(the following picture),it is for transmite the sound.If the environment permit,please use this nut.When you take the video,the equipment also can record the sound.
3. The nut,B：MIC2 is without the hole,but it is with a rubber fitting inside which can anti-water,When it is in the humidity or dust environment,please use this nut.But when you use this nut,the equipment can not record the sound.
4. Please tighten the nuts when you use the equipment.
5. Before use the nut,please check if the rubber is inside of the nut.If not,please change the new one.
